	response?	
16	Has a chain of command been established between local law enforcement response and institute?	
17	Is there any direct alarm communication between the institute and the local law enforcement? If not, how would law enforcement be summoned? Is the communication system reliable?	
18	How often is the scientific institute briefed on threats (daily, weekly, monthly, for cause)?	
19	How many law enforcement personnel are available to respond to the institute on each shift?	
20	What is the average response time to the institute? Any logistical issues with the route?	
21	What is the frequency of law enforcement patrol of the site?	
22	What communication systems are available? What is the back-up communication system?	
23	Are communication systems compatible with institute security force?	
24	What are the roles and responsibilities of each organization that would be involved in identifying a threat to the institute (biological in general) and responding to it?	
25	Is a map available of the areas patrolled?	
26	Are there any jurisdictional issues with other law enforcement agencies?	
27	Does law enforcement help the institute in response force planning, transport of dangerous materials, or any other form of security service?	
28	Do law enforcement personnel know what kinds of dangerous pathogens are held at the institute, where they are held and who is responsible for them?	

29	Are law enforcement personnel familiar with biological agents?	
30	Does LE have technical assistance available to answer questions regarding biological or chemical materials?	
31	Would LE know who to talk to at the institute in the event of a specific threat?	
32	Would LE know how to enter a bioscience facility safely?	
33	What kinds of training do the law enforcement response personnel receive?	
34	If there is an on-site institute guard force, is there any communication or training between on-site guards and law enforcement response personnel?	
35	Are there legal restrictions to how law enforcement responds to an alarm/call for armed adversaries at the institute?	
36	Is there an established "Use of Force" policy? If so, what are the parameters?
