

**Biosecurity Inspector Training Workshop**  
**Staten Serums Institut**  
**Copenhagen, Denmark**  
**31 August – 2 September 2009**  
**Agenda**

Course topics will include an introduction to biosecurity, implementation of biosecurity at bioscience facilities (e.g. developing a design basis threat), biosecurity risk assessment, components of biosecurity (i.e. physical security, personnel security, material control and accountability, information security, and transportation security), biosecurity program management (e.g. documentation, training, performance testing, and exercising security plans), and integration of biosecurity and biosafety. There will also be specific discussions on measuring the impact of biosecurity programs, and roles and responsibilities in effective biosecurity programs.

Learning Objectives:

- To define the roles and responsibilities for conducting a biosecurity inspection
- To review the role of a risk assessment in implementation of biosecurity
- To understand the goals, roles, and responsibilities of a biorisk management program
- To understand the components of biosecurity and how they should be implemented and evaluated
- To discuss approaches for conducting inspections based upon biosecurity principles and regulations

## ***Day 1***

---

### ***Introduction***

09:00 – 09:30	Introductions Sandia National Laboratories Participants
09:30 – 10:30	Biosafety and Biocontainment Review
10:30 – 10:45	Break
10:45 – 11:30	Evolution of Biosecurity
11:30 – 12:00	Lunch

### ***Assessing Biosecurity Risks***

12:00 – 13:30	Design Basis Threat
13:30 – 13:45	Break
13:45 – 15:00	Biosecurity Risk Assessment
15:00 – 15:30	Discussion
15:30	Adjourn

## ***Day 2***

---

### ***Biosecurity***

09:00 – 10:15	Biosecurity: Physical Security
10:15 – 10:30	Break
10:30 – 11:30	Biosecurity: Physical Security, continued
11:30 – 12:00	Lunch
12:00 – 13:30	Biosecurity: Personnel Security, Material Control & Accountability, Transportation, and Information Security
13:30 – 13:45	Break

### ***Biorisk Management***

13:45 – 15:00 Biorisk Management

15:00 – 15:30 Discussion

15:30 Adjourn

### ***Day 3***

---

#### ***Biosecurity Evaluation***

09:00 – 10:15 Biorisk Documentation

10:15 – 10:30 Break

10:30 – 11:30 Biosecurity System Evaluation and Testing

11:30 – 12:00 Lunch

12:00 – 13:45 Biosecurity System Evaluation and Testing

13:45 – 14:00 Break

#### ***Biosecurity Regulations***

14:00 – 15:00 Overview of Biosecurity Regulations in Other Countries

15:00 – 15:30 Discussion

15:30 Adjourn
